Pu/tting the ‘T’ in tech.

Led in partnership by New Flyer of America and Motor Coach Industries, the Vehicle Innovation Center (VIC) opens October 2017 in Anniston, Alabama.

The VIC will lead America in the exploration and advancement of bus technology connecting people to places. Through ongoing delivery of interactive experiences and collaboration with industry leaders, the VIC mission is to:

- Advance bus and coach technology through sustainable research and development, fresh innovation, progressive manufacturing, and bold thinking.
- Foster dialogue through discussion, education, and training on the latest zero-emission, connected and autonomous driving vehicle technologies.
- Engage learning through current and interactive exhibits, simulation and hands-on experiences, and observations.
- Generate energy and commitment to clean air quality, safety, and economic benefits for people, communities, and business.
- Harness the positive influence of collaboration, environmental stewardship, and social change to advance smart mobility solutions.

To be America’s leader in the exploration and advancement of bus technology connecting people to places.

Our vision.

Development of the VIC was supported by New Flyer of America and Motor Coach Industries (MCI) partners, each contributing interactive learning experiences that highlight the company’s electric and autonomous vehicle technologies.

$25 Million USD
Renovation and expansion, to be completed 2018.

50
Years experience manufacturing zero-emission buses (ZEBs)

32
Fabrication, manufacturing, distribution & service centers

First innovation lab in North America dedicated to the advancement of bus and coach technology.

We proudly employ more American workers than any other bus manufacturer in North America.
About New Flyer Industries.

The company is the largest transit bus and motor coach manufacturer and parts distributor in North America with fabrication, manufacturing, distribution and service centers across America. It employs approximately 6,000 team members.

New Flyer Industries is North America’s largest transit bus and motor coach manufacturer and parts distributor, with 32 fabrication, manufacturing, distribution, and service centers across Canada and the U.S. employing over 6,000 team members. It offers the broadest bus product line under the brand Xcelsior®, incorporating the broadest range of drive systems available, including clean diesel, natural gas, diesel-electric hybrid, trolley-electric, and battery-electric. New Flyer actively supports over 44,000 heavy-duty transit buses currently in service, of which 6,400 are powered by electric and battery propulsion.

The Company is also North America’s motor coach market leader offering the Motor Coach Industries Inc. (MCI) J-Series, the industry’s best-selling intercity coach for 11 consecutive years, and the MCI D-Series, the industry’s best-selling motor coach line in North American history. MCI is also the exclusive distributor of Daimler’s Setra S 417 and S 407 motor coaches in the United States and Canada. MCI actively supports over 28,000 coaches currently in service.

New Flyer Industries operates North America’s most comprehensive parts organization, NFI Parts™, providing parts, technical publications, training, and support for its OEM product lines (transit buses and motor coaches). All buses and coaches are also supported by an industry-leading comprehensive warranty, service, and support network.

Further information is available at www.newflyer.com and www.mcicoach.com. The common shares of New Flyer Industries Inc. is traded on the Toronto Stock Exchange under the symbol NFI.
